

RIDING TESTS & STYLE JUMPING TRAINING

Some RC members may not have heard of these - some might have been put off by the idea of being judged on their riding. Let's face it - we have all come out of an arena at some point and blamed things on the horse!

But if you think of Riding Tests and the training that goes with it as a way of improving those dressage scores, you might see them in a different light. The new tests for 2010 encourage you to think about and prepare the movements. There are lots of transitions, unlike the older tests that just looked like dressage tests. We are also offering Style Jumping Training - again this helps with your other competitions and is fun in its own right.

Even if your club has always done quite well at these competitions, there is always room to improve, so Area 10 is offering training as below. This is subsidised by Area Training grant, so is good value to encourage you to come along

Clinics will be at Street Farm, Burham, Rochester ME1 3RL [10 mins J6 M20] and will be £10 for an individual lesson of 40 mins or 1 hour for a shared lesson.

Riding Test
